

~~Sub 8~~ identification code is indicated in the extraction indication step, transmitting at once all of the information identification code stored in the storage step to the external device.

28. (Twice Amended) A computer data signal for controlling a portable terminal apparatus, said signal program comprising:

a data code signal of a display step of displaying received information;

~~Sub 8~~ a data code signal of an extraction indication step of performing an extraction of an information identification code and indicating a transmission of the information identification code to an external device, which acquires information corresponding to the information identification code by a same single physical key by a single operation, wherein the information identification code specifies information stored in the external device and indicates to the external device to display a window for designating printing conditions of the information;

a data code signal of an extraction step of, when an extraction of an information identification code is indicated in the extraction indication step, extracting at once all of an extractable information identification code from the information displayed in the display step;

a data code signal of a storage step of storing the information identification code extracted in the extraction step; and

a data code signal of a transmission step of, when a transmission of an information identification code is indicated in the extraction indication step, transmitting at once all of the information identification code stored in the storage step to the external device.

REMARKS

Claims 14, 18-20, 22, 24, 26, and 28 are presented for examination, with Claims

14, 22, 24, 26, and 28, the only claims in independent form, having been amended by the present Amendment. Claim 17 has been canceled, without prejudice or disclaimer of the subject matter presented therein.

Favorable consideration and an early and favorable examination on the merits are respectfully requested.

Applicants' undersigned attorney may be reached in our New York Office by telephone at (212) 218-2100. All correspondence should continue to be directed to our address listed below.

Respectfully submitted,

Attorney for Applicants
